Boreman, **Vol. TT52** x Uncooled Thermal ...

13. Image performance in CRT displays Book 2003 WorldCatorg

In this work, cathode ray tube (**CRT**)-based **displays** are explained. It covers **performance** properties and safety limits of the various glass melts, the architectural differences between colour and monochrome, and the cathode as a failuremode for all **CRTs**.

14. OSA Colour gamut mapping between small and large colour

This paper describes an investigation into the **performance** of different gamut compression algorithms (GCAs) in different uniform colour spaces (UCSs) between small and large colour gamuts. Gamut mapping is a key component in a colour management system and has drawn much attention in the last two decades. Two new GCAs, i.e. vividness-preserved (VP) and depth-preserved (DP), based on the ...
